## Style VALUE

Why spend your good money for plain and ordinary windows?

Tasteful and classic style is standard with Vinyl-Tech windows.

Reject the square or bevel cornered profiles others have. Vinyl-Tech windows are styled for you with frame profiles that add classic charm and tasteful detail to your home. "VERY NICE" is what you will hear from friends and family as they gaze approvingly at your newly installed windows.

Looking good is always satisfying.

### CASEMENT/AWNING

Tasteful and classic style begins here with the Casement/Awning design — one of the most popular window styles for homes across Europe and North America. Perfectly combining efficiency, form and function, the casement/awning window provides a clean and elegant look. Fixed and operating casements can be specified singly or in delightful combinations to form double-wide, bay, bow or bump-out installations.

### Vinyl-Tech Casements feature;

- Corrosion free lifetime security with Canadian made De-Mar Stainless Steel hinges and tie-bars.
- Smooth and trouble-free operation with Truth crank handles and mechanisms.
- More ventilation and easy cleaning with a full 90° opening.
- Highest efficiency from Triple weather-stripping.

# Equity

## VALUE

Just imagine...yes imagine how much your new Vinyl-Tech windows will increase the perceived and real value of your home. Vinyl-Tech windows will become a prominent feature of your home's value equation. You'll know that the cost of your new windows was money well invested as you, your family and friends spend good times together enjoying the comfort of Vinyl-Tech quality windows.

### DOUBLE & SINGLE SLIDER TILT

Very popular in many homes, sliders are both practical and versatile. They afford an expanded view and simple convenience. Vinyl-Tech's sliders are engineered for top energy conservation.

### DOUBLE & SINGLE HUNG TILT

Who doesn't take note of a well-proportioned, traditionally styled Double or Single Hung window? Beautiful!

Vinyl-Tech's design pays tribute to the past with a slender frame, and leads in the present with high-tech features. This graceful style is a top energy performer.

#### Vinyl-Tech Hung/Tilt Slider features;

- Easy-to-use spring-loaded balance system for smooth operation (Hung).
- High-tech seals for wind and water protection.
- Tilt-in sashes for effortless cleaning inside and out.
- Cam locks for best security (Hung).
- Single-hung and sliders have self-storing screens.

## Custom

### VALUE

Did you know ..you can dress up your new windows? Yes, personalize your Vinyl-Tech windows.

Imagine how the "perfect" exterior colour would add to your home's street appeal? Or perhaps you would like to add internal grills chosen to match your décor and sense of personal style? Vinyl-Tech can even add the ultimate finishing touch .. never-paint-again, perfectly fitted interior trim.

The choices go on and on.

### DECORATIVE GRILLS

- Choose from contemporary or traditional decorative grills.
- White is the standard colour for decorative grills. All other colours & finishes are available.
- For a more elegant appearance, consider a pewter or brass finish.

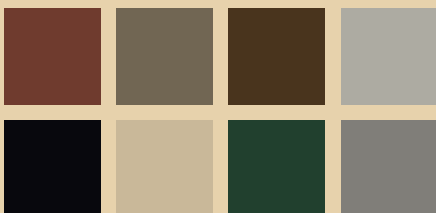

### INTERIOR TRIM

- Never paint again! - perfectly cut vinyl trim and jamb extensions snap onto your window frames for a flawless finish. Available in white.
- Pre-cut trim & jamb extensions also available in wood.

### CUSTOM EXTERIOR COLOURS

- Custom colours add class, distinction & never need re-painting.
- Ask to see our colour swatch. More than 20 available.

# Technical

## VALUE

A great looking window is of no value without leading-edge technical features. Vinyl-Tech windows have it all. We specify only the most advanced features & hardware in the design & construction of our rugged and energy efficient windows.

### SEALED GLASS UNITS

You may add construction features which will improve specific performance criteria. For example you may add glass coating features and/or change the warm-edge spacer.

### GLASS OPTIONS

You may add glass options; Argon Gas Filling minimizes heat loss in winter. LowE Glass minimize both heat loss in winter & heat gain in summer.

### WARM-EDGE SPACER OPTIONS

Warm-edge spacers resist cold & condensation at the coolest point of the glass unit – the perimeter edges. They also reduce noise and boost the insulating value of your windows. You may upgrade the spacer specification by choosing a Thermal Edge Spacer or Edgetech Premium Super Spacer. It's your choice.

### HARDWARE OPTIONS

You may choose to upgrade to TRUTH branded hardware. Always the benchmark of quality and ruggedness Truth Cranks and Locks are an intelligent choice for your new Vinyl-Tech windows.

## MULTI-CHAMBERED FRAMES

Manufactured to our own design, our multi-chambered & heavy walled vinyl extrusions are the foundation of our energy efficient window designs. They are solid as a rock – resisting warping, cracking and peeling – and they never need painting.

TRUTH Casement Crank Handle (optional)

## DE-MAR HINGES & TIE BARS

The complex hinge mechanisms required by casement windows soon rust in the Canadian climate if not made of Stainless Steel. De-Mar is a Canadian company manufacturing Stainless Steel components for our Canadian Climate. Their products are simply the best.

## Craftsmanship

### VALUE

Albert Miranda has been building windows for over 35 years!

In all that time he hasn't lost the passion for craftsmanship that has become his personal trademark. And it's Albert that will build your windows. Well, to be honest, it's Albert and his son ... and a few carefully chosen and well trained employees – all of whom consider themselves craftsmen.

Yes, Vinyl-Tech is a family business that has grown on a reputation for skill, innovation & quality. Just like in the old days.
